

Vision

INFRATECH will be the contractor of choice for its customers; the customer of choice for its vendors; and the employer of choice for its people.

Mission

INFRATECH provides distribution construction services to utility companies. Our services are cost effective and meet customer expectations in the areas of safety, quality, reliability, support, and availability. We train and develop the very best people and equip them with leading edge technology. INFRATECH is committed to continuous improvement through partnering with its customers, vendors and people.

Values

Integrity is paramount
No accident is acceptable
Focused customer service
Right choices make us the contractor of choice
Accountability at all levels of the company
Teamwork through enhanced thinking and communication
Exceptional rewards for exceptional performance
Conscious adherence to standards
Human capital enrichment and organizational development

Creating an innovative and dynamic culture
Ongoing alignment of technology and performance enhancement
Respecting those with whom and for whom we work
Partnering with our customers, vendors, and people for continuous improvement

Code of Honor

Train and lead by example
Seek to improve
Strive to be proactive than reactive
Develop understanding
Look out for and assist one another
Communicate with honesty and show respect
Never sacrifice safety for production
Demonstrate support of company policies
Honor all commitments
Take responsibility for all actions
Reserve judgement until all facts are considered
Make the right choices through knowledge
Teamwork makes the dream work
Uphold the Code of Honor
